--Detailed Description of the Invention--

IN THE ABSTRACT

After the last page of the claims, commencing on a
separate page, please [✓]rewrite the abstract as follows:

ABSTRACT OF THE DISCLOSURE

A5
A batch, in particular for the production of refractory shaped bodies, includes a mixture of a refractory, metal oxide main component containing 40 to 60% by weight of Al_2O_3 , a phosphate bond and finely particulate SiC having a grain size of ≤ 0.2 mm, and a process using the mixture for forming the batch to produce the refractory shaped bodies.
